Angel Pena To Speak About Resources Found In Organ Mountains / Desert Peaks Monument

The Dona Ana County Historical Society's February 20 presentation will be given by Angel Pena. Pena is president of the Nuestra Tierra Conservation Project and a board member of the Friends of the Organ Mountains-Desert Peaks.

In 2013, as an Anthropology graduate from NMSU, Pena lead teams of archaeologists and anthropologists through the proposed Organ Mountains-Desert Peaks National Monument to conduct archaeological inventories for the Bureau of Land Management in preparation for the nomination. Pena will talk about some of the findings both historic and natural located throughout the National Monument areas and continuing efforts to preserve these designated areas for future generations.

As usual, the meeting will be at the Good Samaritan auditorium at 7 p.m. The hall is at 3011 Buena Vida Circle. The lecture is free and open to the public.

Laumbach's Final Lecture On Canada Alamosa Will Be Feb. 13

The 5th and last lecture in HSR's 2019-2020 lecture series, *A Synthesis of Twenty Years of Archeological Discoveries on the Canada Alamosa*, will be on Feb. 13.

Since the series began in September, Karl has brought attendees from the Archaic occupation in the canyon into the late 1300s by which time the Victorio Site and the Pinnacle Ruin had both been abandoned. Abandonment may have been due to the double impact of the

"Little Ice Age" and the Apache.

February's lecture will trace the archaeological record that suggests there was an Apache occupation by at least the late 1400s in the canyon and will discuss interaction between the residents of Canada Alamosa and the Apache through 1900.

The lecture will begin at 7 p.m. in the auditorium at the Good Samaritan Village at 3011 Buena Vida Circle here in Las Cruces..
